

Dear parents of Charter School of Inquiry,

By now, many of you have heard: **Just for Kids** is offering a 'new generation' of Academic Enrichment programming for the students. As Director, I am writing to introduce myself and our program, and to discuss a unique offering for students.

Just for Kids is extremely excited to begin a partnership with the school, families, and community. Families who sign up for the **Just for Kids** Enrichment program will experience a wide variety of activities and choices designed to enrich and support learning, while maintaining a positive, fun, and structured environment. In addition to offering academic enrichment and homework help, our staff bring expertise in counseling, art, science, history, film, creative writing, sports and travel.

Thanks to a partnership with the Charter School of Inquiry, **Just for Kids** is able to offer this service to the families free of cost. In general, the program will run directly following the regular school day, Dismissal-5:30 PM, Mondays through Fridays, from September through June. We will not operate on the day before a school holiday, or when after school activities are cancelled (ie, due to weather). A regular commitment and high behavioral expectations are key to realizing academic skill growth.

Please feel free to browse our website www.justforkidsonline.org for further details about **Just for Kids** in general and for information about enrolling your child. Please be sure to enroll by August 1st so that your child may be eligible to attend our program the first day of school.

If we can be of any assistance, please contact us at 716.639.8500 or by email: info@justforkidsonline.org.

Thank you,

Kristina Kleeh, MA/CAS
